

## Polycom SoundPoint® Pro SE-225

High-quality full-duplex conferencing right from your desktop

- ▼ All-in-one communications at your fingertips—conferencing, handset and headset support
- ▼ High-quality voice clarity with full-duplex conferencing—for natural two-way conversations
- ▼ Keypad activated rear mic for maximum room coverage
- ▼ 99-number programmable speed dial—saves dialing time
- ▼ 99-number outgoing call history directory - easily locate and dial stored numbers
- ▼ 2-line support - the perfect home office telephone

**Desktop audio conferencing at its finest.** Telecommuters and small businesses need the same high-quality audio conferencing capabilities they would use in a corporate office. Now, Polycom® introduces the feature-rich SoundPoint® Pro 3.0 SE-225 to provide corporate-quality audio conferencing capability in an elegant, personal business phone. SoundPoint Pro seamlessly integrates handset and headset telephone functionality with crystal clear, hands-free audio conferencing in a single business telephone that sounds as great as it looks.

**Hold three-way audio conferences.** SoundPoint Pro utilises the same industry-leading conferencing technology that has made SoundStation® conference phones from Polycom the top choice of corporations worldwide. With the touch of a button, SoundPoint Pro lets you hold clear, full-duplex audio conferences with up to two additional participants for a multipoint conference call. Callers can speak when they want, without the clipped sentences and one-way conversations common with ordinary business speakerphones.

**Versatile features make your phone time more productive.** The SoundPoint Pro has a front-facing microphone optimised for personal use, or, activates the rear microphone for dual-mic, 360° coverage in-group conferencing situations. Plus you can connect an optional headset for high-quality, hands-free applications. Extra cables and boxes won't weigh you down - the headset amplifier and volume controls are built in.

The 2-line feature makes SoundPoint Pro the perfect home office business telephone. You only need one phone on your desk for both your business and personal lines.

## SoundPoint Pro—the full-featured desktop phone that puts professional conferencing within reach for any small business or home office

- ▼ Easily switches between speakerphone, headset, and handset modes
- ▼ 32-character LCD display shows number dialed, length of call and other useful information
