

# CYPRESS CA-HDMI50R HDMI OVER TWIN CAT5e

REQUIRES TRANSMITTER AND ONE DISTANCE RECEIVER

Cypress CA-HDMIAT is the transmitter (Tx) unit of a HDMI over CAT5 Tx/Rx solution. Depending on the type of receiver (Rx) unit used, CA-HDMIAT can extend HDMI signal through CAT-5 cables for a distance of 50/100/150/250 metres. The installation of Cypress HDMI Over CAT5 is easy and quick, simply place CAHDMIAT next to your HDTV source such as a DVD player, then place the receiver unit (CA-HDMI50R / CA-HDMI100R / CA-HDMI150R / CA-HDMI250R) next to your display, and get all necessary cables connected to complete. Choose one CA-HDMIAT Transmitter and only one Receiver depending on the distance required. Compliant with HDMI 1.2, and DVI 1.0 specifications Supports CAT5/CAT5e/CAT6 cables of variable types Supports high definition input up to 1080p, output resolution follows input Easy to install and simple to operate Not compatible with HDCP Source
