

# Bring crystal-clear audio to even the largest collaboration spaces

## Lifesize® Digital MicPod™

In addition to a pro audio 48 kHz sampling rate, Lifesize Digital MicPod reduces ambient room noise and features beam-forming technology that automatically steers its three microphones toward the person speaking for greater voice pickup.

Touch-sensitive mute button and “Mute” and “In-Call” LED indicators round out the user-friendly features that make Lifesize Digital MicPod a clear-cut choice for organizations that need to extend the audio pickup range of Lifesize Phone HD or Lifesize Phone, 2nd Generation.

Lifesize Digital MicPod works only with Lifesize Phone HD or Lifesize Phone, 2nd Generation, via two Lifesize Link connectors.
